Priority

Allowable Subject Matter

2. Claims 1-11 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest an exposure apparatus, measuring system, or fabrication method having a differential pumping system comprising a first chamber storing a light source that emits light; a second chamber that receives light from the chamber; and a vacuum pump, provided between said first and second chambers, which includes a hollow shaft through which the light passes, and exhausts the hollow shaft in combination with the remaining elements of claims 1 or 9-11. Claims 2-8 are allowable because of their dependencies upon claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
